EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James A. Larson on December 30, 2004.

The application has been amended as follows:

(CLAIMS)

Cancel claims 30-32.

The following is an examiner's statement of reasons for allowance:

Claim 24 was originally rejected, but after a discussion with Mr. Larson, it was determined that the allowable subject matter was based on the hex configuration of the body at its open end along with the hex configuration of the drive mechanism. Note that the allowance is based on the hex configuration of the valve body, since the hex configuration of the drive mechanism alone is not patentable, because it doesn't perform anything different than the other type of drive mechanisms of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
